Source: US Mortality Files, National Center for Health Statistics, Centers for Disease Control and Prevention.

Rates are per 100,000 and age-adjusted to the 2000 US Std Population (18 age groups - Census P25-1130).

Due to coding changes throughout the years, Lung and Bronchus includes trachea and pleura.

The APC is significantly different from zero (p<.05). Statistic not shown. Rate based on less than 16 cases for the time interval. Trend based on less than 10 cases for at least one year within the time interval.
