Reportability

Dates of Diagnosis/Residency

SEER registries are required to collect data on persons who are diagnosed with cancer and who, at the time of diagnosis, are **residents** of the geographic area covered by the SEER registry. Cases diagnosed on or after January 1, **1973** are reportable to SEER. Registries that joined the SEER Program after 1973 have different reporting start dates specified in their contracts. All cases meeting these criteria are reportable to SEER, including non-analytic cases.

Reportable Diagnosis List

Definition of Reportable: Meets the criteria for inclusion in a registry. Reportable cases are cases that the registry is required to collect and report. Reporting requirements for SEER registries are established by NCI SEER. A "Reportable List" includes all diagnoses to be reported by the registry to NCI SEER.

See the applicable SEER manual for reportability information for a specific diagnosis year. https://seer.cancer.gov/tools/codingmanuals

1. Malignant Histologies (In Situ and Invasive)

- a. Report all histologies with a **behavior code** of /2 or /3 in the *International Classification of Diseases* for Oncology, Third Edition (ICD-O-3) and in approved ICD-O-3 updates, except as noted in section 1.b.
 - i. Carcinoid, NOS of the appendix is reportable. As of 01/01/2015, the ICD-O-3 behavior code changed from /1 to /3.
 - ii. Report Pilocytic/Juvenile astrocytomas; code the histology and behavior as 9421/3.

Exception: The behavior is non-malignant when the primary site is optic nerve (C723) and diagnosis year is 01/01/2018 or later.

- b. Do **not** report (Exceptions to reporting requirements)
 - i. **Skin** primary (C440-C449) with any of the following histologies

Malignant neoplasm (8000-8005)

Epithelial carcinoma (8010-8046)

Papillary and squamous cell carcinoma (8050-8084)

Squamous intraepithelial neoplasia III (8077) arising in perianal skin (C445)

Basal cell carcinoma (8090-8110)

Note: If the registry collects basal or squamous cell carcinoma of **skin** sites (C440-C449), sequence them in the 60-88 range and do not report to SEER.

ii. Carcinoma **in situ** of **cervix** (/2), cervical intraepithelial neoplasia (**CIN III**) or SIN III of the cervix (C530-C539)

Note: Collection stopped effective with cases diagnosed 01/01/1996 and later. As of the 2018 data submission, cervical in situ carcinoma is no longer required for any diagnosis year. Sequence all cervix in situ cases in the 60-88 range regardless of diagnosis year.

iii. Prostatic intraepithelial neoplasia (PIN III) (C619)

Note: Collection stopped effective with cases diagnosed 01/01/2001 and later.

iv. Histologies 8442/1, 8451/1, 8462/1, 8472/1, 8473/1 diagnosed prior to 1/1/2001. These histologies were /3 in ICD-O-2 and mostly coded to site ovary (C569).

Note: As of the 2021 data submission these cases are no longer required for any diagnosis year. Sequence in the 60-88 range.

2. Benign/Non-Malignant Histologies

- a. Report **Benign** and **borderline** primary intracranial and central nervous system (CNS) tumors with a behavior code of /0 or /1 in ICD-O-3 (effective with cases diagnosed 01/01/2004). See the table below for specific sites.
 - *Note 1:* Benign and borderline tumors of the cranial bones (C410) are **not reportable**.
 - *Note 2:* Benign and borderline tumors of the peripheral nerves (C47) are **not reportable**.
- Report Pilocytic/Juvenile astrocytomas; code the histology and behavior as 9421/3
 Exception: The behavior is non-malignant when the primary site is optic nerve (C723).
- c. **Neoplasm and tumor** are reportable terms for brain and CNS because they are listed in ICD-O-3 and approved ICD-O-3 updates with behavior codes of /0 and /1

Table. Required Sites for Benign and Borderline Primary Intracranial and Central Nervous System Tumors

General Term	Specific Sites	ICD-O-3 Topography Code
Meninges	Cerebral meninges	C700
	Spinal meninges	C701
	Meninges, NOS	C701
Brain	Cerebrum	C710
	Frontal lobe	C711
	Temporal lobe	C712
	Parietal lobe	C713
	Occipital lobe	C714
	Ventricle, NOS	C715
	Cerebellum, NOS	C716
	Brain stem	C717
	Overlapping lesion of brain	C718
	Brain, NOS	C719
Spinal cord, cranial nerves, and other parts of the	Spinal cord	C720
central nervous system	Cauda equina	C721
	Olfactory nerve	C722
	Optic nerve	C723
	Acoustic nerve	C724
	Cranial nerve, NOS	C725
	Overlapping lesion of brain and	C728
	central nervous system	
	Nervous system, NOS	C729
Pituitary, craniopharyngeal duct, and pineal gland	Pituitary gland	C751
	Craniopharyngeal duct	C752
	Pineal gland	C753
