

Coding Guidelines

Urethra C680

Primary Site

C680 is the only ICD-O-3 code available for urethra. Assign C680 for penile urethra and for prostatic urethra.

Transitional / urothelial cell carcinoma originates in the urethra, bladder, ureters, and renal pelvis. Code the primary site to urethra (C680) when transitional / urothelial cell carcinoma involves the prostate and the urethra.

First Course of Therapy

Do not code Lupron as treatment for a primary in the prostatic urethra.
