

# Surveillance Research Program (SRP)

## Surveillance, Epidemiology and End Results (SEER) Program Annual Usage Metrics, 2024

[seer.cancer.gov](http://seer.cancer.gov)

As of 2024, the SEER Program consists of 17 core registries (representing 48% of the US population) and collects approximately 950,000 cancer cases per year.

### SEER Data in Publications (1975–2024)

- ~25,000 using SEER data for the primary analysis
- 126,000+ referencing SEER data
- 2,600+ using SEER-Medicare, SEER-Consumer Assessment of Health Providers and Systems (CAHPS), and SEER-Medicare Healthcare Outcomes Survey (MHOS) linked data

### Research Grants and Contracts (2024)

- Primary grant support: N=95/\$52.7M
- Secondary grant support: N=13/\$5.3M
- Grants using SEER data establishing background: N=52/\$24.6M
- Intramural: N=12/\$17.6M
- Grant mechanisms
  - ◊ R01: 52 ◊ P01/P20: 11 ◊ U01/U54: 17 ◊ P30: 25 ◊ R21: 2 ◊ Other: 53
- Research and development contracts: N=37/\$92.9M

### Requests for November 2023 Data Submission (4/2024-4/2025)

- Research data requests: 16,354
- Research Plus data requests: 1,883

### Website Analytics (2024)

- Page views
  - ◊ Total SEER website: 22M+ ◊ SEER\*Explorer: 199,034 ◊ NCCR\*Explorer: 245,434
- Downloads
  - ◊ SEER\*Stat software: 16,191 ◊ Joinpoint: 13,505
- SEER\*Stat analyses: 362,501
