Source: SEER 9 areas (San Francisco, Connecticut, Detroit, Hawaii, Iowa, New Mexico, Seattle, Utah, and Atlanta).

Based on follow-up of patients into 2016. [Expected survival rates](#) are derived from the U.S. Annual Life Tables.

Note: Neuroblastoma and Wilms' tumor are not mutually exclusive from the other tumors presented in table.

<sup>a</sup> Neuroblastoma is defined as histologies 9490-9509.<sup>b</sup> Wilms' tumor is defined as histologies 8959-8960.<sup>c</sup> The difference between 1975-1977 and 2010-2016 is statistically significant (p<.05).<sup>d</sup> The standard error is between 5 and 10 percentage points.<sup>e</sup> The standard error is greater than 10 percentage points.

- Statistic could not be calculated due to fewer than 25 cases during the time period.
