2. Total Population equals the sum of the White, Black, American Indian/Alaska Native, Asian, Native Hawaiian/Pacific Islander, Other Race, and Two or More Races columns. Note that only the American Indian/Alaska Native populations are covered in the SEER areas of Arizona and Alaska.
3. Since each person could report multiple races in the 2000 Census, race-specific counts and percentages in this table are based on persons self-reporting only one race.
4. The Chinese, Filipino, and Japanese populations are also included within the "Asian" population.
5. Hispanic ethnicity is tabulated independently of race, so Hispanic persons may be of any race.
6. Total SEER and SEER % of U.S. only include registries that currently participate in the SEER Program; New Jersey and Detroit are excluded.
7. Percentages include populations from registries that no longer participate in the SEER Program. SEER 9 and SEER 13 include Detroit, and SEER 18 and SEER 21 include Detroit and New Jersey.
8. Greater Georgia calculated by subtracting the number for Atlanta and Rural Georgia from the Georgia state totals.
9. Greater California calculated by subtracting the number for San Francisco-Oakland, San Jose-Monterey and Los Angeles from the California state totals.
10. Only the American Indian/Alaska Native populations within these states/areas are covered by SEER.
