Question 20000508

References:

SEER EOD-88, 3rd Ed, 116

Question:

EOD-Extension--Cervix: Should this field be coded to 11 [minimal microscopic stromal invasion] or 12 [microinvasion] when there is only a statement of "microinvasion" but no measurements describing the level of involvement given?

Discussion:

Answer:

For cases diagnosed 1998-2003:

Code the EOD-Extension field to 12 [microinvasion] when there are no depth of invasion measurements given.

Code the EOD-Extension field to 11 [minimal microscopic stromal invasion] when there is a statement of "minimal STROMAL invasion."
