Question 20000527

References:

#1: SEER Program Code Man,3rd Ed, 119

#2: 2004 SEER Manual, 172

Question:

Radiation: Is "consolidated" radiation therapy coded as part of first course therapy when there is no documentation of "planned treatment" and the radiation is done 4 months after the initiation of treatment?

Discussion:

Answer:

Yes, "consolidation" treatment is part of a planned treatment regimen. A treatment regimen may consist of the four following phases:

1. Induction (remission induction)
2. CNS preventive therapy
3. Consolidation/intensification
4. Maintenance
