## Question 20010046

### References:

#1: SEER EOD-88, 3rd Ed, 111

#2: SINC 20021023

### Question:

Histology (Pre-2007)/EOD-Lymph Nodes/SEER Summary Stage 2000--Breast: What codes are used to represent these fields for a breast case with a diagnosis of ductal carcinoma in situ and a positive regional lymph node?

### Discussion:

### Answer:

For tumors diagnosed prior to 2007:

Code the Histology field to 8500/3 [Infiltrating duct carcinoma, NOS]. Code the EOD-Lymph Nodes field to 6 [Axillary/regional lymph nodes, NOS] and the SEER Summary Stage 2000 field to 3 [Ipsilateral regional lymph nodes(s) involved only].

For tumors diagnosed 2007 or later, refer to the MP/H rules. If there are still questions about how this type of tumor should be coded, submit a new question to SINC and include the difficulties you are encountering in applying the MP/H rules.

### Cancer Site Category:

Breast

### Data Item Category:

Histology

### Other Category:

N/A

### Year:

2001
