Question 20031076

References:

SEER EOD-88, 3rd Ed, 3. #7

Question:

EOD-Size of Primary Tumor--Prostate: Is this field coded to the size of a hypoechoic mass identified on a TRUS when there is no tumor size from the prostatectomy specimen?

Discussion:

Answer:

For cases diagnosed 1998-2003: Ultrasound measurement of a malignancy can be used to code EOD-Size of Primary Tumor. Information on tumor size taken from imaging/radiographic techniques has low priority, just above physical examination.

Cancer Site Category:

Prostate
