Question:

EOD-Pathologic Extension--Prostate/Lymphoma: How is this field coded for a prostatic lymphoma?

Discussion:

Answer:

For cases diagnosed 1998-2003: Do not code the prostate pathologic extent of disease field for prostatic lymphoma. Leave the path extension for prostate field blank. Code the extent of disease using the lymphoma scheme. Use ONLY the lymphoma scheme - do NOT try to code both lymphoma and prostate extension fields for prostatic lymphoma.
