#2: ICD-O-3, 180

Question:

Reportability--Bladder: Is "low grade papillary urothelial neoplasm with no evidence of invasion" reportable to SEER?

Discussion:

Answer:

"Neoplasm" means "new growth," not malignancy. A low grade papillary urothelial NEOPLASM with no evidence of invasion [8130/1] is not reportable to SEER. However, a low grade papillary urothelial CARCINOMA with no evidence of invasion [8130/2] is reportable.
