#2: 2004 SEER Manual, C-562

Question:

CS Site Specific Factor--Prostate: How is SSF 6 coded for this site when there is only one Gleason number documented and the number is less than 5 (e.g., Gleasons 3)?

Discussion:

Answer:

This answer was provided in the context of CSv1 coding guidelines. The response may not be used after your registry database has been converted to CSv2.

Code 999 [unknown or no information]. Note 1 was revised in September 2006 to clarify this situation.

Note 1 states "If only one number is given and it is less than or equal to 5, code the total score to 999, unknown or no information.

Cancer Site Category:

Prostate

Data Item Category:

N/A
