## Question 20061077

### References:

2004 SEER Manual, 171

### Question:

Chemotherapy--Breast: Is chemotherapy administered for inflammatory breast cancer also coded as therapy for an in situ tumor in the contralateral breast?

### Discussion:

### Answer:

Yes. Because chemotherapy would likely affect both primaries, code it as treatment for both the in situ and the inflammatory breast cancers.

### Cancer Site Category:

Breast

### Data Item Category:

Chemotherapy

### Other Category:

N/A

### Year:

2006
