Question 20130065

References:

Heme & Lymph Manual & DB

Question:

Histology--Heme & Lymphoid Neoplasms: Should the higher histology code associated with grade 1 follicular lymphoma [9695/3] be used rather than grade 2 follicular lymphoma [9691/3] in cases of follicular lymphoma grade 1-2?

Discussion:

Answer:

Code histology to 9691/3 [follicular lymphoma, grade 2], histology. For follicular lymphoma, when there is a grade such as 1-2 indicated, take the histology associated with the higher grade disease process, even though the lower grade histology code is higher.
