

Head and Neck Histology Coding Rules-Flow chart

(C000-C148, C300-C329)

(Excludes lymphoma and leukemia M9590-9989 and Kaposi sarcoma M9140)

SINGLE TUMOR

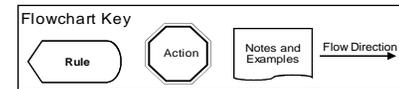

Rule	Action	Notes and Examples
<p>H1</p>		<p>1. Priority for using documents to code the histology</p> <ul style="list-style-type: none"> ○ Documentation in the medical record that refers to pathologic or cytologic findings ○ Physician's reference to type of cancer (histology) in the medical record ○ CT, PET or MRI scans <p>2. Code the specific histology when documented.</p> <p>3. Code the histology to 8000 (cancer/malignant neoplasm, NOS) or 8010 (carcinoma, NOS) as stated by the physician when nothing more specific is documented.</p>
<p>H2</p>		
<p>H3</p>		<p><i>Example: Squamous cell carcinoma. Code 8070.</i></p> <p>Do not code terms that do not appear in the histology description.</p> <p><i>Example: Do not code 8072 (squamous cell carcinoma non-keratinizing) unless the words "non-keratinizing" actually appear in the diagnosis.</i></p>
<p>H4</p>		<p><i>Example: The final diagnosis is keratinizing squamous cell carcinoma (8071) with areas of squamous cell carcinoma in situ (8070). Code the invasive histologic type, keratinizing squamous cell carcinoma (8071).</i></p>

Head and Neck Histology Coding Rules-Flowchart

(C000-C148, C300-C329)

(Excludes lymphoma and leukemia M9590-9989 and Kaposi sarcoma M9140)

SINGLE TUMOR

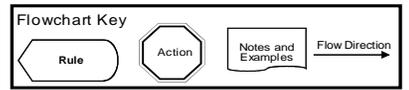

Rule	Action	Notes and Examples
<p>H5</p> <p>Are there multiple histologies within the same branch such as:</p> <ul style="list-style-type: none"> • cancer/malignant neoplasm, NOS (8000) and a more specific histology? OR • carcinoma, NOS (8010) and a more specific carcinoma? OR • squamous cell carcinoma, NOS (8070) and a more specific squamous cell carcinoma? OR • adenocarcinoma, NOS (8140) and a more specific adenocarcinoma? OR • melanoma, NOS (8720) and a more specific melanoma? OR • sarcoma, NOS (8800) and a more specific sarcoma? <p>Yes</p> <p>NO</p>	<p>Code the most specific histologic term using Chart 1</p>	<p>1. The specific histology for in situ tumors may be identified as pattern, architecture, type, subtype, predominantly, with features of, major, or with _____ differentiation.</p> <p>2. The specific histology for invasive tumors may be identified as type, subtype, predominantly, with features of, major, or with _____ differentiation.</p> <p><i>Example:</i> The final diagnosis is squamous cell carcinoma (8070), papillary (8050). Code the specific type, papillary (8050)</p>
<p>H6</p>	<p>Code the numerically higher ICD-O-3 histology code.</p>	

This is the end of instructions for Single Tumor.

Code the histology according to the rule that fits the case.
